

I urge the FCC to reject the NAB's petition 04-160 and to support the voting public's right to the programming we choose. Satellite radio provides me with a fantastic selection of channels to listen to and view points I would normally not have the chance to hear from our local shows.

I would not be willing to re-elect an individual who feels they can deprive me of something so basic as listening to the weather or traffic updates.

I sincerely hope you will take in to consideration the impact that petition 04-160 will have, not just on satellite radio but also the impact on the growing number of people who rely on satellite radio for news, information and entertainment.
